

Vacancy for:
Junior Software Developer:
Mobile App Development

www.techairos.com

Techairos Consulting is a small IT company that specialises in providing solutions where several technologies are integrated together.

We are looking for candidates with Computer Science or Engineering degrees.

Job description

You will be given responsibilities on a variety of projects, depending on your skills and experience.

Possible tasks may include:

- **Mobile app development**
 - Initially focussed on Android, but will expand to iOS later
 - Typically Cordova + Ionic (Angular + HTML/CSS)
 - Possibly some native Android development
- **Other software development** (various languages, various applications)
- Developing and testing **mobile surveys** using OpenDataKit
- Customisation / improvement of **open-source software** projects

Apply if you are:

- A South African citizen
- Available to attend interviews **in Stellenbosch in person** at short notice (please indicate your current city/town of residence specifically in your application e-mail)
- Early in your career, or a recent graduate, or graduating soon
- Eager to gain experience in mobile app development, and different software languages
